

Both the Rooms and the Studios that we have to offer are completely furnished and air-conditioned. Rita's Studios are equiped with a kitchen so that you can cook up something of your own in case you don't feel like eating out. The view of the sea from both the rooms and the studios is simply stunning. They are both located only a few meters from the seaside making it tempting and easy to go for a quick swim at any time of the day or night. We also happen to be located only a few meters away from the docking area of the little taxi boats that come and go from Myrties to Telenedos. It is something to take seriously into consideration, especially if you are carring alot of lugage or climbing equipement.
